Defending a Municipality's Right to Choose Contractors

Bob Schaub and Mike Sowinski, attorneys with Rosenn, Jenkins & Greenwald's Litigation Department, were recently successful in defending a municipality's right to choose the lowest responsible bidder in a competitively bid, time sensitive construction project in the Northern Tier. A general contracting bidder filed an emergency injunction alleging the municipality disregarded the lowest bid submitted for a general contracting project. Attorneys Schaub and Sowinski secured a decision in favor of the municipality and the project continued with the lowest responsible bidder of the municipality's choosing, and awarded any delays and increased costs.
