

RJG is a proud sponsor of the American Heart Association's Go Red for Women initiative!

The American Heart Association is dedicated to saving lives from heart disease and stroke. Go Red for Women, their signature initiative, is a comprehensive platform designed to increase women's heart health awareness and serve as a catalyst for change to improve the lives of women both locally and globally. It accelerates science, advances public health policy, addresses the multitude of gender and racial gaps for women and ensures all women are aware of what they can do to reduce their own risk of heart disease and stroke.

By getting involved with Go Red for Women locally, we are supporting hospitals, health clinics and patients across NEPA. The women in our community do so much to take care of the people in their lives. We need to remember to take care of them, too.
