

Congratulations to NEPIRC on the success of their Manufacturing Day!

The event, which took place on May 6 at Mohegan Sun, featured booths from manufacturers, vendors and sponsors, networking opportunities, a photo booth, special topic breakout sessions, panel discussions, and a keynote speech from David Beurle, the founder and CEO of Future iQ.

Rosenn Jenkins & Greenwald was proud to sponsor this event. Our own [Lee Piatt](#), a Partner in our Business & Finance Department, serves on NEPIRC's Board of Directors. Lee, along with [Nick Marinelli](#), an Associate in our Business Law & Finance Department, represented the firm at our sponsor booth. Thank you to those who stopped by!
