

At Rosenn Jenkins & Greenwald, we encourage our attorneys to be actively involved with local and state bar association activities and other professional associations. To show our appreciation for our lawyer's contributions to such associations, we will highlight the involvement of an RJG attorney in a professional association on our social media pages on each Wednesday for the next several weeks. We call it our "Professional Activity Profile" series and we hope that it serves to acknowledge the hard work of our attorneys in these endeavors.
